Fri	11 Dec	Rest, sleep well, keep confidence high - exam window begins

Note on pacing: This schedule runs 8 hrs/day across all 7 days with no built-in rest day. If this proves unsustainable by Week 3-4, consider making one day per week a lighter 5-6 hr day of revision-only - consistency over 20 weeks matters more than never missing an hour. Keep one running error log from Day 1; it's reused every Friday and throughout Phase 4-5.
